

ROJN

ECONOMIC AND EDUCATIONAL EMPOWERMENT PROGRAM

Rojn in Balochi language means light. Enlightenment empowers knowledge, self-awareness, and world-awareness; whoever becomes conscious will reach culture and wisdom step by step. In such a world, human being appreciates and appears in their high individual stature from enlightenment, consciousness, and wisdom. According to humanity's masters and the great philosophers, education is the answer directing humankind to the endless treasure of education and cultivation.

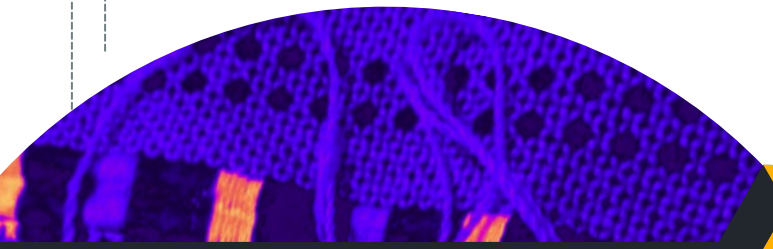

This is how Shahpari NGO outlined a path to create a world full of knowledge, awareness, and friendship, always followed by educated, capable, and creative individuals. In the path of enlightenment, the association intends to not only develop the educational and cultural capacities of girls students in Sistan and Balochistan Province but also to empower them in the economic and entrepreneurial fields. The Rojn project is now in its preliminary phase and is being implemented in the girls' boarding school in the Kourin village, Nusratabad in Zahedan.

GOALS

- Dropout Prevention of girls
- Empowering and strengthening the volunteer students of Rojn's education and economics skills
- Expanding artistic skills, creativity, and entrepreneurship
- Promoting skills of empathy and teamwork
- Development of income sources for schoolgirls through art and creative activities according to the artistic and economic advantages of Sistan and Balochistan region; including the ancient art of Balochi needlework and pottery
- Promoting the reading culture among Rojn girls and raising their general awareness, especially in the economic, social, health, and environmental fields.

ACTIVITIES AND ACHIEVEMENTS

- Purchasing and distributing 35 tablets and mobile phones to enable virtual education for girls of Rojn
- Holding various training workshops for economic and educational empowerment of Rojn girls
- Preparing specialized counseling sessions in the social, economic, and educational fields by specialists and experts
- Attracting volunteers to work with the project as Rojn ambassadors to develop a network of social activists and assist students and their families in learning
- Collaborate with some economic activists in the handicrafts arena, enabling the Rojn girls' participation in production projects. In this regard, cooperation has been established with several related companies to consult and obtain small business projects
- Equipping boarding school libraries in target villages with the cooperation of donors and public donations
